- 1997 Certified Heavy Equipment Operator, Occupational Safety and Health Administration, in conjunction with Operators Union

Professional Memberships (Not for Profit Organizations)

- Member, International Erosion Control Association
- Member, Missouri Department of Conservation Grow Native Program
- Member, Society of Wetland Scientists

Background

Mr. Parisi is a regional expert in the construction of wetlands and bioengineered stream channels. His knowledge of native plants in conjunction with his field experience in the construction of wetlands is a benefit to the Midwest Mitigation Oversight Association (MMOA) when questions regarding recent wetland construction arise during annual inspections. His physical location in Eastern Missouri will accommodate the physical inspection of future sites where conservation easements are granted to the MMOA.
