Met with Rep for Developer to observe the easement grounds. Neighbors had concerns that some "kids" were disturbing the protected property. Did a comprehensive inspection and noticed motorcycle tracks around the pond. Contacted the family of the "kids" to advise that the easement document prohibited that activity. Set up a neighborhood watch group to look and listen for any violations. None reported since September, 2022. Walked the entire property as well and there appeared to be no other activities or occurrences on the premises, except as otherwise allowed. There is a small, non-permanent dock used for fishing and wildlife observation that benefits the community greatly.
